

The forest of lizards

A long time ago, this forest was lizardman's habitat.

The species, however, faced extinction 13 years ago due to an extraordinary phenomenon.

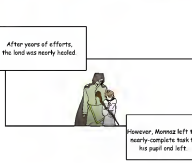

The problem, though, was that, inside of their bodies.

They had a poison organ.

As their bodies decayed, their poison polluted the land.

Soon enough, the forest soon became too poisonous for anything to live.

Sage Mennoz, who was on a quest to heal the land, encountered the forest and decided to heal the land.

Mennoz's followers started to construct a village by the forest.

After years of efforts, the land was nearly healed.

However, Mennoz left the nearly-complete task to his pupil and left.

The pupil was merely 10 years old.

Current forest of lizards

Baum's day was unreal

He screwed up his food

And his laundry was blown away.

And he broke stuff while cleaning

And he tripped

When he was thinking, "What a day"

A handsome knight from the lord's manor paid a visit.

Greetings, I am Perc, a vice captain of Teiwaz Knights

Ah, hello

My name is Baum.

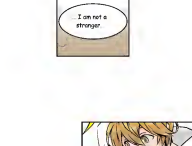

Oh, wow -

It is great honor to finally meet Sage Mennoz's only pupil.

Erp! Ah... Well - I

I am really ... no one. I often wonder whether I am really qualified to be his pupil...

Oh, well ...

I have to do this, huh.

I am not a stranger.

Huh?

Uh...

SFX: Blink

When did he sit next to me...

We consider Sage Marnaz and his people as a part of our family

Especially since you are the only pupil of his.

We consider you quite special. I feel sad that you see me as a stranger

SFX: Goosebump

.....??? ...??

What is this...?

This strange sensation...

Pere's expectation

His reaction is... odd?

Sir Beum, what I am saying is -

SFX: Goosebump

!!!!

Um -

Please, stay away-

아그자  
Crack (bite)

He is crying ???

!! Blood...! BLOODS !!

You are bleeding !!
